

NADIIA BALITSKA

FULLSTACK DEVELOPER

👤 I'm a Junior Fullstack Developer with a strong interest in building modern, user-friendly web applications.

I work with technologies such as JavaScript, Tailwind, TypeScript, React, Redux Toolkit, and Zustand. On the back end, I have experience with Node.js, Express.js, Fastify.js, Prisma ORM, MongoDB, and ClickHouse. I'm also familiar with Prebid.js, and design tools like Figma, as well as UI/UX principles, wireframing, and prototyping. My goal is to become a valuable team member who can create efficient, high-quality solutions and contribute to meaningful projects.

EXPERIENCE

EOPLAY (Mai-Aug 2024)

As a **Front-End Developer** at EvoPlay, I developed responsive and user-friendly landing websites focused on mini-games using HTML, CSS, and JavaScript. My role involved creating visually appealing UI components, ensuring cross-browser compatibility, and optimizing website performance for seamless user experiences.

BIDMATIC.IO (September-October 2025)

Completed a one-month **full-stack internship** at Adtelligent (Bidmatic), where I contributed to both front-end and back-end development. Worked with technologies such as React, TypeScript, Tailwind, Zustand, Node.js, Fastify.js, Prisma, MongoDB, and ClickHouse. Gained hands-on experience in API integration, database optimization, ad implementation, and component-based architecture within a collaborative team environment.

PROJECTS

SPACE2STUDY, GITHUB-REPOSITORY

(React, Redux Toolkit, Node.js, MongoDB, TypeScript, Vite)

Space2Study is a study team project involving 5 developers. Space2Study is an online learning platform that allows experts to share their knowledge and helps students improve their skills in various fields.

MONEY GUARD, GITHUB-REPOSITORY

(React, Redux Toolkit, Formik + Yup, Axios)

Money Guard is a comprehensive financial management web application designed to help users track their expenses, set budgets, and monitor financial goals.

PORTFOLIO, GITHUB-REPOSITORY

(Java Script, styled with CSS)

This project was, as an example, made for a detailed biography of the front-end developer, his skills, experience, projects, etc.

EDUCATION

OsloMet

Bachelor of Information Technology

August 2025- Present

Noroff University and College

Front-end development

October 2024- Present

National Transport University

Bachelor of Computer Science

August 2022- Present
