

# NADIIA BALITSKA

## FULLSTACK DEVELOPER

I am a junior Fullstack developer with basic experience in web development, constantly striving to develop and improve my skills.

I have knowledge of **HTML, CSS, Tailwind, Java Script, Type Script**, as well as experience with popular frameworks and libraries such as **React** and **Redux Toolkit** and with back-end side it is **Node.js** and database **MongoDB**.

I am a quick learner and actively work on projects to expand my abilities and achieve high results in programming. My goal is to become a valuable team member who is capable of solving complex problems and creating quality products.

## EXPERIENCE

### EVOPLAY (May-Aug)

As a Front-End Developer at EvoPlay, I developed responsive and user-friendly websites focused on mini-games using **HTML, CSS, and JavaScript**. My role involved creating visually appealing UI components, ensuring cross-browser compatibility, and optimizing website performance for seamless user experiences. This experience honed my skills in delivering high-quality web solutions in the gaming industry.

## PROJECTS

### SPACE2STUDY, GITHUB-REPOSITORY

(React, Redux Toolkit, Node.js, MongoDB, TypeScript, Vite)

Space2Study is a study team project involving 6 developers, including me. Space2Study is an online learning platform that allows experts to share their knowledge and helps students improve their skills in various fields. The platform is built using modern technologies, primarily JavaScript and TypeScript.

### MONEY GUARD, GITHUB-REPOSITORY
