

NADIIA BALITSKA

FULLSTACK DEVELOPER

👋 I'm a Junior Fullstack Developer with a strong interest in building modern, user-friendly web applications.

I work with technologies such as JavaScript/TypeScript, Java, Python, SQL, React, Next.js and other. On the back end, I have experience with Node.js, Express.js, Fastify.js, MongoDB, and other. I also actively use AI tools (LLMs) to improve development efficiency, debugging, and problem-solving. My goal is to become a valuable team member who can create efficient, high-quality solutions and contribute to meaningful projects.

EXPERIENCE

EVOPLAY (Mai-Aug 2024)

As a **Front-End Developer** at EvoPlay, I developed responsive and user-friendly landing websites focused on mini-games using HTML, CSS, and JavaScript. My role involved creating visually appealing UI components, ensuring cross-browser compatibility, and optimizing website performance for seamless user experiences.

BIDMATIC.IO (September-October 2025)

Completed a two-month **full-stack internship** at Adtelligent (Bidmatic), where I contributed to both front-end and back-end development. Worked with technologies such as React, TypeScript, Tailwind, Zustand, Node.js, Fastify.js, Prisma, MongoDB, and ClickHouse.

Gained hands-on experience in API integration, database optimization, ad implementation, and component-based architecture within a collaborative team environment.

PROJECTS

ACTIVEUNITY, GITHUB-REPOSITORY

(Next.js, TypeScript, Node.js, Express, and MongoDB, styled with Tailwind)

ActiveUnity is a full-stack event management platform designed to help users create, manage, and join community events in a convenient and interactive way.

SPACE2STUDY, GITHUB-REPOSITORY

(React, Redux Toolkit, Node.js, MongoDB, TypeScript, Vite)

Developed React components for the learning platform, integrated REST API, and implemented Redux state management.

MONEY GUARD, GITHUB-REPOSITORY

(React, Redux Toolkit, Formik + Yup, Axios)

Money Guard is a comprehensive financial management web application designed to help users track their expenses, set budgets, and monitor financial goals.
